	Farm Property included in line 3 above	-	0.75	-
	Farm Property included in other property lines reported above	-	1.00	-
	Less non real property premium - Inland Marine Ln 9 (4)	-	1.00	-
	<b>Net Statewide Property Premium</b>	-		-

(1) - Attach a list of companies comprising the "Group" with supporting "Statutory Page 14's" and combining details for the information included in this report. Affiliate Companies may elect to group for the reporting period.

(2) - Statewide property premiums means those premiums that were charged for insurance for any and all risks on real property and contents in the state. Statewide premiums are determined by taking the direct written premium reported on page 20 of the annual statement for the lines of business noted and adjusting for factors provided for in the plan of operations.

(3) - Statewide property premium may be further reduced by other farm property premium provided farm property premiums are reported timely to the association (see reporting instructions and definition of other farm property).

(4) - Statewide property premium may be further reduced by any inland marine premium that is not real property and contents. Typically, real property and contents risks included in inland marine would be builder's risk, personal property floaters written in conjunction with H.O. or Dwelling policies, and certain specialty real estate risk (see reporting instructions for inland marine).

I certify that the premiums reported herein are correct to the best of my knowledge.
